

G-Monster-V2 , which is able to support the capacities up to 256GB and support 1.5/3.0Gbps SATA I/II interface, with read speed up to 230mb, write speed up to 160mb.

G-Monster-V2 is the SSD with the large capacity and the 2.5 inch light case. With the 100x69.93x9.30mm unit features a three-axis design that allows it to withstand 20G vibrations and up to 1,500G shocks at 0.5m. Also, its high stability, lower power consumption, will make it more popular for general high lever computer using. What more is G-Momster-V2 has the incredible excellent read and write speed and data in SSD will be kept more safely for at least ten years.

G-Monster-V2 will be available in Japan 3C stores from 24th December, 2008.

Meanwhile, comparing with the original Hard Disk which searches data by "magnetic head" with long time, SSD is faster and saves your time when searching data.

Owning it, you can enjoy with its high speed!

| 【 Specifications 】     |                                 |
|------------------------|---------------------------------|
| Supports               | 1.5/3.0Gbps SATA I/II interface |
| Dimensions:            | 100mm x 69.93mm x 9.30mm        |
| Weight:                | 97g                             |
| Shock Resistant:       | 1500G/0.5ms                     |
| Vibration Resistant:   | 20G/10~2000Hz with 3 axis       |
| Operating Voltage:     | DC 5V                           |
| Power Consumption:     | 500mA~600mA                     |
| Operating Temperature: | -10C ~ +70C                     |
| Storage Temperature:   | -55C ~ +95C                     |
| MTBF:                  | > 2,500,000 Hours               |
| Data Retention:        | > 5 years at +25C               |
| Data Reliability:      | Built in BCH 15-bit ECC         |

| 【Features】                          |                                     |
|-------------------------------------|-------------------------------------|
| Capacity                            | Available in 128GB / 256GB          |
| Read speed:                         | up to 230 MB/sec                    |
| Write speed:                        | up to 160 MB/sec                    |
| O/S Support:                        | Windows 2000/XP/Vista/Linux/Mac OSX |
| Supports : SMART RAID Supported     |                                     |
| Low Power Consumption               |                                     |
| Slim type 2.5" Design               |                                     |
| Fully Compliant with RoHS directive |                                     |
| CE and FCC compatibility            |                                     |
